ARMA[®]

RIGID CONDUIT SYSTEMS

Introducing the latest in high performance cable management with one fully featured solution for **above ground** applications, and another for **below ground** applications.

Using an application-based approach, the Marley ARMA[®] range is simplified to save space in your vehicle and time at the work site, while achieving a long lasting, professional finish each and every time.

Independently verified to comply with AS/NZS 61386, the Marley ARMA[®] rigid conduit system is proudly made in New Zealand and 100% recyclable.

Marley ARMA[®] rigid conduit systems – performance like no other.

KEY SELECTION FACTORS

Marley ARMA's fully featured solutions make **ABOVE GROUND** and **BELOW GROUND** selection quick and easy.

All solutions satisfy 3 Key Selection Factors.

1

DURABILITY

Heavy Duty classification ensures long term mechanical durability

2

CRAFTMANSHIP

A range of features that allow a quick & easy installation but also achieve a high quality professional finish

3

ASSURANCE

Independent verification to
AS/NZS 61386:2015

PRODUCT AUTHENTICITY

Not all brands of rigid conduit in the market perform to the same level. For proof of intended performance, check the mandatory print requirements that are marked on the conduit.

Marley ARMA® Above and Below Ground Rigid Conduit meets the mandatory print requirements and is independently verified to meet the intended design applications as stipulated by AS/NZS 61386 and the NZ Wiring Regulations (AS/NZS 3000:2018).

**IF IT'S NOT 4431
ASK WHY NOT?**

by aliaxis

ABOVE GROUND BEST PRACTICE SOLUTION

**Provides Heavy Duty protection
in all above ground applications
whether indoors or outside, so that
installations can be carried out to a
hassle free, professional finish.**

DURABILITY

Long term outdoor durability – designed to meet the weathering and durability requirements of the NZ Building Code and suitable for use with photovoltaic arrays (PV) as per AS/NZS 5033.

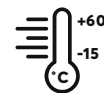

UV PROTECTION (T)

Long term outdoor
durability

HD

HEAVY DUTY 4431

Mechanical protection for durability
against compression and impact forces

SERVICE TEMPERATURE RANGE

High performance in extreme service
temperatures up to 60°C and down to -15°C

CRAFTSMANSHIP

To ensure a professional high quality finish, the conduit's performance in regard to bending, cutting, scratching and soiling are key factors. The convenience of a full range of colour-matched fittings make installs quick and easy.

HIGH GLOSS FINISH

Superior scratch and soiling resistance compared to a matte finish

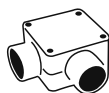

GREY COLOUR MATCH

To match Marley fittings for a professional finish

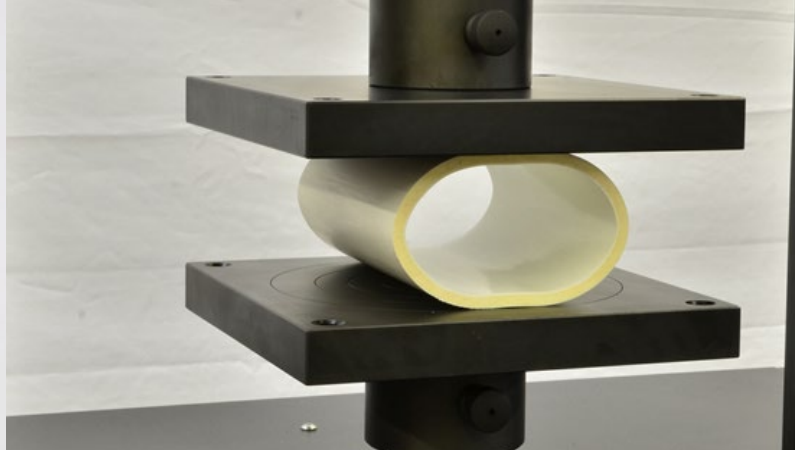

QUALITY OF CUT

Product retains shape once cut, will not deform like thinner wall product

EXTENSIVE FITTINGS RANGE

For ease of install, including secure "press fit" connections

AUTHENTIC QUALITY

The assurance that Marley ARMA® conforms to the required standards of performance.

COMPLIANCE

Manufactured consistently and rigorously tested to a high standard

PROVEN RELIABILITY

Local manufacturer with over 50 years of proven performance

CUSTOMER SUPPORT

Dedicated teams nationwide for sales, technical and distribution support

CRADLE TO CRADLE

BEP certified. 100% recyclable. Marley will take back off-cuts or end of life product from site for recycling

by aliaxis

BELOW GROUND BEST PRACTICE SOLUTION

Delivers Heavy Duty performance
while saving time & installation costs

GREATER SAVINGS

Heavy Duty classification and an extended service temperature range reduces installations costs for the contractor. For Category A underground wiring systems, the longer the trench, the greater the savings.

A

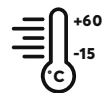

CATEGORY A UNDERGROUND

Removes the need for additional mechanical protection (such as cable cover) - saving laying, backfilling and material costs

HD

HEAVY DUTY 4431

Mechanical protection for durability against compression and impact forces

SERVICE TEMPERATURE RANGE

High performance in extreme service temperatures up to 60°C and down to -15°C

CATEGORY A

Marley ARMA® Heavy Duty conduit - extra protection not required

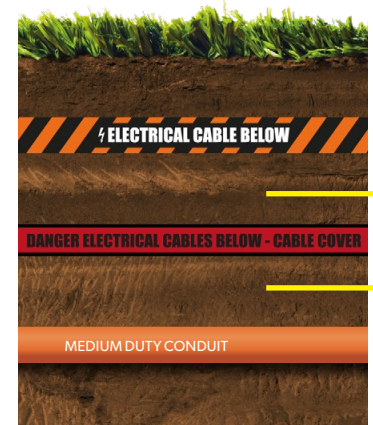

**Marley ARMA®
Heavy Duty conduit**

CATEGORY B

Medium Duty conduit - extra cable cover protection required

Additional laying and backfilling

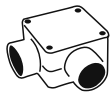

**VS Medium Duty
conduit**

CRAFTSMANSHIP

To ensure a professional high quality finish, the conduit's performance in regard to bending, cutting, scratching and soiling are key factors.

The convenience of a full range of colour-matched fittings make installs quick and easy.

EXTENSIVE FITTINGS RANGE

For ease of install, full range of 90° plain bends and sweep bends in both 45° and 90° variants

QUALITY OF CUT

Product retains shape once cut, will not deform like thinner wall product

HIGH GLOSS FINISH

Superior scratch and soiling resistance compared to a matte finish

ORANGE COLOUR MATCH

To match Marley fittings for a professional finish

AUTHENTIC QUALITY

The assurance that Marley ARMA® conforms to the required standards of performance.

COMPLIANCE

Manufactured consistently and rigorous tested to a high standard

PROVEN RELIABILITY

Local manufacturer with over 50 years of proven performance

CUSTOMER SUPPORT

Dedicated teams nationwide for sales, technical and distribution support

CRADLE TO CRADLE

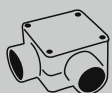

BEP certified. 100% recyclable. Marley will take back off-cuts or end of life product from site for recycling

Sustainable Manufacturing

Marley is committed to creating environmentally sustainable processes and products and was the first plastics manufacturer in New Zealand to achieve ISO14001 registration. We are also Best Environmental Practice certified for our entire range of manufactured uPVC systems. This means we get our raw materials from sustainable and responsible sources, continuously work on our manufacturing processes to reduce our environmental footprint and accept our products back at the end of their useful life for recycling.
