Authorised Representative

Dr Stephen Tredwell
New Zealand Quality Manager

Programme

Mechanical Testing Laboratory

Accreditation Number 92

Initial Accreditation Date 29 March 1978

Conformance Standard

ISO/IEC 17025:2017

General requirements for the competence of testing and calibration laboratories

Laboratory Services Summary

4.69 Plastic and Plastic Products

Approved Signatories

Mr Nizam Mohammed	4.69
Mr John Scott	4.69

Operations Manager Authorisation:		Issue 34	Date:10/01/23	Page 1 of 2

Marley New Zealand Limited
 Mechanical Testing Laboratory
SCOPE OF ACCREDITATION

Accreditation Number 92

4.69 Plastic and Plastic Products

Extruded and Moulded Products

The following tests in accordance with the standards shown:

Dimensions	AS/NZS 1462.1
Pipe impact tests	AS/NZS 1462.3, AS 1273.1
Heat reversion test	AS/NZS 1462.4
Vicat softening temperature	AS/NZS 1462.5, ISO 2507.1, ISO 2507.2
Hydrostatic pressure test	AS/NZS 1462.6, 1462.10
Stress relief	AS/NZS 1462.11
Elastomeric seal joint contact width and pressure	AS/NZS 1462.13
Method for High Temperature testing of Plastic Pipe	AS/NZS 1462.16
Pipe stiffness test	AS/NZS 1462.22
Resistance to heat	AS/NZS 61386.21– Clause 12 Thermal Properties
Tensile strength & failure mode of butt-fused PE joints	ISO 13953
Peel decohesion test for PE electrofusion assemblies	ISO 13954
Determination of ring stiffness	ISO 9969

PVC Conduit and Fittings

The following tests in accordance with the standards shown:

Resistance to compression	AS/NZS 2053.1: APP A
Bending test	AS/NZS 2053.2: APP AA
Resistance to heat	AS/NZS 2053.2: APP BB
Resistance to compression	AS/NZS 61386-1
