STRATUS®
DESIGN SERIES

WHERE STYLE
MEETS DURABILITY

New Zealanders have trusted Marley spouting and downpipe systems to protect their homes from the elements for over 40 years. Marley is proud to showcase our new generation of **designer uPVC spouting and downpipe systems.** Inspired by nature the Marley Stratus Design Series® is created with style and durability in mind.

PERFORMANCE AND DURABILITY

With most areas of New Zealand experiencing between 600–1600mm of rainfall throughout the year you will need a strong performing spouting and downpipe system. Marley Typhoon® and Stormcloud® spouting systems have been designed for the efficient flow of rain water and when used in conjunction with Marley's matching RP80® 80mm round downpipe system can withstand prolonged heavy rainfall.

SUSTAINABLE MANUFACTURING

Marley prides itself on playing an active role in creating a sustainable future for New Zealanders. We manufacture long lasting, highly durable products and systems to help maximise the lifecycle of our built environment and we operate responsibly with respect to the environment.
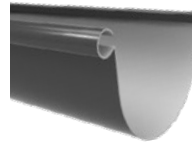

TYPHOON® SPOUTING

Marley Typhoon® spouting is designed for high rainfall conditions. Its half round profile has excellent capacity and flow characteristics. For a striking design statement and ease of cleaning, choose the external bracket option.

Available in:

GREY FRIARS®   IRONSAND®   BLACK   COPPER   TITANIUM

STORMCLOUD® SPOUTING

NZ's favourite uPVC spouting, Stormcloud's quarter round shape frames your house with clean, strong lines, while providing all the low maintenance and long life benefits of uPVC.

Available in:

GREY FRIARS®   IRONSAND®   BLACK

15 YEAR GUARANTEE

WILL NOT RUST

U.V RESISTANT
