

MARLEY STRATUS DESIGN SERIES®

WHERE STYLE MEETS DURABILITY

INSPIRED BY COASTAL NEW ZEALAND

New Zealanders have trusted Marley spouting and downpipe systems to protect their homes from the elements for over 40 years. Marley is proud to introduce our new generation of **designer uPVC spouting and downpipe systems**. Inspired by nature the Marley Stratus Design Series® is created with style and durability in mind.

When renovating, replacing existing spouting or building a new home, the Marley Stratus Design Series® offers a premium sophisticated look while protecting your home from the elements. For an innovative and New Zealand manufactured solution insist on Marley Stratus Design Series® for style without compromise.

PERFORMANCE AND DURABILITY

With most areas of New Zealand experiencing between 600–1600mm of rainfall throughout the year you will need a strong performing spouting and downpipe system. Both Marley Typhoon® and Stormcloud® spouting systems have been designed for the efficient flow of rain water and when used in conjunction with Marley's RP80® 80mm round downpipe system can withstand prolonged heavy rainfall.

The co-extruded spouting and downpipe system with its coloured outer layer is guaranteed for 15 years and being made from uPVC, will never rust, no matter what elements your home is exposed to. At the end of their lifecycle Marley spouting and downpipe systems can be recycled by simply returning it to our Auckland site.

For guaranteed performance we recommend you install a complete Marley rainwater system including either Typhoon or Stormcloud spouting and Marley's RP80® 80mm round downpipe system.

15 YEAR GUARANTEE

Guaranteed against material and manufacturing defects for 15 years.

WILL NOT RUST

Never rusts, no matter what elements your home is exposed to.

U.V RESISTANT

Designed to stand up to New Zealand's unique UV rays and climate.

MADE IN NZ

Made in New Zealand to meet New Zealand conditions, for over 40 years.

SAFE FOR DRINKING

Complies with AS/NZS 4020: 2005, so safe for collecting drinking water.

LOW MAINTENANCE

Wash with warm soapy water and a soft brush, then simply rinse with clean water.

100% RECYCLABLE

Used spouting and downpipes can be returned to Marley for recycling.

SUSTAINABLE MANUFACTURING

Marley is committed to creating environmentally sustainable processes and products and was the first plastics manufacturer in New Zealand to achieve ISO14001 registration. We are also Best Environmental Practice (BEP) certified for our entire range of manufactured uPVC systems, so are recognised under the New Zealand Green Building Council's Greenstar rating system.

BEP accreditation requires that we get our raw materials from sustainable and responsible sources, continuously work on our manufacturing processes to reduce our environmental footprint, and accept offcuts and used products back at the end of their life for recycling.

Marley has also joined Meridian Energy's Certified Renewable Energy programme with the goal of only sourcing electricity from 100% renewable sources by 2025.

TYPHOON® SPOUTING

Half round shape

Marley Typhoon spouting is designed with a high front to conceal untidy rooflines and its curved profile ensures the efficient flow of rainwater. The half round profile will complement any style of home from classic villa or beach house, to the modern home.

BRACKET OPTIONS

Create a seamless finish with the smooth lines of the internal bracket system, or for a striking design statement and ease of cleaning, choose the external bracket system.

RP80® DOWNPIPE

New Zealand's number one selling round downpipe is a key component of the Marley Stratus Design Series® system. The RP80® downpipe system is available in 80mm O.D. with the option of Titanium or Copper hybrid-metallic finishes or Grey Friars®, Ironsand®, Black and our new colour FlaxBlack. Choose the colour to match your Marley or metal spouting, make a bold design statement or blend in with your cladding or joinery.

Marley downpipes are strong, easy to install and have no seams so securely remove rainwater. Completing the downpipe system is a full range of matching components including the Marley Curve® to keep leaves and debris out of water tanks and stormwater systems.

SUSTAINABILITY WITH STYLE

Marley's rain harvesting range combines innovative product features with sleek sophisticated designs that blend seamlessly into your downpipe system. Products are easy to install and maintain and require no glue or solvents.

CURVE®

- BLACK
- IRONSAND®
- GREY FRIARS®
- FLAXBLACK®
- TITANIUM
- COPPER

The Marley Curve® is a leaf diverter that combines sleek, sophisticated design with innovative filtering technology to cleanse water of debris. Its unique screen design draws rainwater in while preventing leaf matter and other debris from entering your water tanks or stormwater system.

- Self-shedding screen
- Improve water quality
- Reduce system maintenance
- Quick release upper body for ease of maintenance
- Can capture 99% of water with a clean screen*

*Based on a flow rate of up to 1.6 l/s under controlled test conditions. Actual performance will vary depending on the particular environment, installation parameters, climatic conditions, and presence of leaf matter and other debris

TWIST®

- BLACK
- IRONSAND®
- GREY FRIARS®
- FLAXBLACK®
- TITANIUM
- COPPER

The Marley Twist® is a compact rainwater diverter that turns your downpipe into a free source of water. Designed for single downpipe use, Twist has an on-off function that allows water to be diverted as and when needed.

- Snap on hose fitting
- Easily connects to a small tank or soaker hose
- Reduce mains water usage
- Source of water for garden or emergency supply
- Can fill a 300-litre tank in an hour*

*Based on simulating light to heavy rainfall under controlled test conditions. Actual performance will vary depending on the particular environment, climatic conditions and presence of leaf matter and other debris.ris
